# How to achieve Sales Results that seem out of reach Mastering the Art of Reality Distortion

A personal invite to an exclusive taster event

Are you ready to step into the Reality Distortion Field?

## THE KNOWLEDGE YOU WILL GAIN

- ▶ How to turn "it's impossible to hit my target" into "give me 3 days."
- ▶ Redefine what's possible because in Sales Leadership, reality is just a starting point.
- ▶ How to build a team that finds a way to achieve "whatever it takes" (hint: it's not magic).

## WHAT IS REALITY DISTORTION?

The aliens from Star Trek called it first, Steve Jobs and Kiss the Fish have just made it practical.

Steve Jobs' reality distortion field was his refusal to accept limitations or challenges, believing any difficulty could be overcome. It was strong enough to convince others they could achieve the impossible.
